## Koala Corporation Board

To help meet the strategic direction of the organisation as opposed to the operational activities, four senior staff form the Koala Corporation Board as follows:

- Managing Director Reg Harris
- CEO Maxine Power
- Chief Financial Officer Fred Pennyman
- Operations Manager Ann Wallace

The Koala Corporation board objectives are to:

- Set the strategic direction of the organisation
- Uphold the organisations values
- Ensure attainment of the organisations business objectives
- Ensure the financial stability and viability of the organisation
- Ensure compliance with legal and ethical obligations

While Koala Corporation staff are grouped and arranged around functional operational activities, individual staff members are commonly placed into project teams for specific purposes to meet the many needs of Koala Corporation. This can lead to situations where lines of authority and responsibility of staff members can become blurred. To avoid potential conflicts, project governance forms a vital part of ensuring the clear roles and responsibilities, levels of authority, and issue escalation and resolution processes are clearly defined for each project. By implementing a clear plan, it is hoped that conflict will be minimised between functional managers needs and those of project managers.

#### Products/services

Due to the wide range of services and destinations offered, prices are determined for each voyage and position on the ship. A profit ratio of 15-20% is the minimum amount necessary for each of the client services offered after expenses have been covered.
